SUMMARY

Full-Stack Software Developer (frontend-leaning) experienced in building modern web applications using React, TypeScript, and backend services such as Supabase and Python. Skilled in developing practical software solutions to real-world problems, from financial compliance systems to consumer platforms. Strong background working in collaborative engineering teams using modern development practices.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, TypeScript

Frontend: React, Tailwind CSS

Backend & Databases: Supabase, Python

Tools & Practices: Git, CI/CD, Agile, Test-Driven Development (TDD)

ENGINEERING EXPERIENCE

Software Development Apprentince (Frontend Lead) – Audit Tool
GitHub: https://github.com/Namurema
Collaborated with a 7-person engineering team for six months building a digital audit platform that replaced manual audit workflows, improving compliance tracking, efficiency, and reporting accuracy.

Software Development Apprentice – Refactory Uganda
Completed an intensive apprenticeship covering software engineering fundamentals including Git/GitHub workflows, CI/CD pipelines, Agile development, OOP and Test-Driven Development.

PROJECTS

Ave – Catholic Prayer App
GitHub: https://github.com/Namurema/Ave-Mobile-App
Built a Catholic prayer application addressing the lack of prayers in local languages, enabling easier access to devotional content through a mobile-friendly platform.

Rate-It – Service Provider Review Platform
GitHub: https://github.com/Namurema/rate-it
Created a platform that helps Ugandans identify trusted service providers by enabling community-driven reviews in a market with limited verification platforms.

LinkedIn Search Chrome Extension
GitHub: https://github.com/Namurema/Chrome-extension
Developed a Chrome extension that improves LinkedIn search precision by enabling more refined queries beyond the platform's default search capabilities.

AI Reliability in Financial Risk Assessment
GitHub: https://github.com/Namurema/risk-assessment-emergence
Explored when AI systems become reliable enough for financial decision-making by evaluating model behavior, consistency, and failure modes in high-stakes financial scenarios.

PRIOR PROFESSIONAL EXPERIENCE

Bancassurance Sales Consultant – Jubilee Life Insurance / Finance Trust Bank (2023–2024)
Worked in regulated financial environments maintaining 80%+ policy persistency and ensuring compliance with financial and AML regulations.

EDUCATION

Bachelor of Arts in Economics – Makerere University, Kampala
